

Celebrating
10
Years of Business

We thank our valued clients and staffing vendors who partnered with us in achieving this milestone and look forward to continued success.

We developed a technology that launched an industry.

www.goringo.com

A lot has happened in a ten year span. In 2001, life was quite different.

A blackberry was a sweet fruit, not a way to get a message.

Tweets were sounds made by birds, not a way to broadcast to the masses.

Kindling was a way to build a fire, not a way to read a book.

A gallon of gas cost \$1.72 and 64 MB seemed like a lot of space for your computer.

Being green was a song sung by Kermit, not how you defined your environmental lifestyle.

And, here at Ringo we started a company that launched an entire industry.

Happy Anniversary to all who've shared our vision & our journey.
